Aaron Kitchen & Bath Design Gallery is a part of Aaron & Company, a leader in the plumbing industry for over 75 years. In 1979 Aaron & Company opened our first Bath Center in New Brunswick. With the growing success of the New Brunswick Bath Center, we opened our second Bath Center in 1982 on Route 202 in Flemington. In 1997 Aaron & Company expanded by adding a new branch and Bath Center in Freehold on Business Rt. 33. In 2006 we renovated our New Brunswick facility and created a brand new facet to our business; Kitchens. We now offer design services, and an outstanding selection of kitchen cabinetry and accessories. In addition, the plumbing showroom in New Brunswick was renovated and all of the showrooms have been renamed to become: The "Aaron Kitchen and Bath Design Gallery"

At Aaron Kitchen and Bath Design Gallery every customer is important. Walk-ins are always welcome, however appointments come first. We understand that the kitchen and bathrooms are vital rooms in your home, and will spend as much time as you need on your project to make sure that every detail is taken into consideration. At AKBG we strive to ensure "style and innovation exceeds dreams and expectations".

*Where Style & Innovation exceeds Dreams and Expectations*
